

## Computer Programming for Engineers: MATLAB

*Academic Term:* SUMMER 2021 (B)

COP2271

### *Class Periods:*

Monday, Wednesday: 9:30 – 12:15PM

Tuesday, Thursday: 9:30 – 12:15PM

### Instructor's Information

Name:	Dr. Saira Anwar (Pronouns: she/her/hers; Honorific: Dr./Prof.)
Email:	<a href="mailto:sairaanwar@ufl.edu">sairaanwar@ufl.edu</a>
Office Hours:	FRIDAY: 10:30 – 11:30AM Zoom Links are provided at Canvas page. Please look in "Start Here" module on Canvas  <b>For any other day or time:</b> Please schedule an appointment 1. use canvas site to make an appointment request or email me 2. include your course section number in email
Office:	NSC 317

### Teaching Assistants/Peer Mentors/Supervised Teaching Students Information:

Please contact them through the Canvas page. Check out the 'Start Here' module on Canvas.

Name:	Ishan Agrawal	Benjamin Arnold
Email:	<a href="mailto:ishan.agrawal@ufl.edu">ishan.agrawal@ufl.edu</a>	<a href="mailto:arnoldb1@ufl.edu">arnoldb1@ufl.edu</a>
Office Hrs	TBD	TBD

### Course Information

#### **Course Description**

Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem-solving skills. An intensive 2 credit course for students pursuing technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the department. In one semester, several languages may be taught, but no more than one per section. Students are required to learn a specific language must enroll in the correct section.

#### **Course Pre-Requisites / Co-Requisites**

MAC 2312 - Analytic Geometry and Calculus 2 with a minimum grade of C

#### **Course Objectives**

The main objective of this course is to provide a foundation in programming for engineering problem solving using the MATLAB software package. Students will develop the skills analyze and break down an engineering program and solve it algorithmically using MATLAB. After this course, students will have an understanding of various programming constructs and how they can be used to solve a computational problem.

#### **Professional Component (ABET):**

This course uses several programming assignments that teach students how to effectively develop programming solutions to engineering problems. Students will develop the skills to analyze a given engineering/mathematical question and pose it as a software solution.

#### **Relation to Program Outcomes (ABET):**

Outcome	Coverage*
1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics	High
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors	High

3. An ability to communicate effectively with a range of audiences	Low
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts	Medium
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives	
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions	
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies	High

\*Coverage is given as high, medium, or low. An empty box indicates that this outcome is not covered or assessed in the course.

### Required Textbooks and Software

- An official textbook is not required. The course requires the use of Canvas course site (<https://elearning.ufl.edu>) **EXTENSIVELY** for all course material. It will be every student's responsibility to be familiar with the material posted on the course web site.
- MATLAB Student Version (any recent version should be fine)  
You may consider using **UFApps** to access a number of popular software applications for "free" including MATLAB at: <http://info.apps.ufl.edu/>; MATLAB is also available for purchase and download at: [http://www.mathworks.com/academia/student\\_version/index.html](http://www.mathworks.com/academia/student_version/index.html)

### Recommended Materials

- Title: MATLAB: A Practical Introduction to Programming and Problem Solving
- Author: Stormy Attaway
- Publication date and edition: August 6, 2016, 4<sup>th</sup> Edition
- ISBN-13: 978-0128045251  
(earlier editions will suffice too)

### Course Schedule

Week 01 (06/28 – 07/02):	Introduction to Information, Technology and Computers User input and output, variables, operators
Week 02 (07/05 – 07/09):	Flow control: if statement While loops, break, continue
Week 03 (07/12 – 07/16):	For loops, nested flow control Series and patterns-based computation <b>EXAM 1</b>
Week 04 (07/19 – 07/23):	Matrices and vectors (arrays) Strings and ciphers
Week 05 (07/26 – 07/30):	Pixels and image manipulation Binary images and thresholding, Matrix concatenation <b>EXAM 2</b>
Week 06 (08/02 – 08/06):	Functions, data analysis and plotting <b>FINAL PROJECT</b>

\*Exam dates will be announced on canvas. It is important to note that exam will held outside of class hours generally in a 5PM – 9PM slot.

### Class Expectations

This course runs on a **flipped classroom design**. Every week students will be expected to work in phases of before class, during class, and after class work

Before class:

- 1) Watch the **content videos** for a particular module

2) Complete a **quiz** based on videos before coming to the class.

During ZOOM class: *(use your personal laptop in the class)*

1) Complete 3 **activities**

2) Discuss activities with your peers at conceptual level (no external source e.g., internet solutions or solutions not formed during class time)

3) Ask any questions to the instructor or peer mentors.

4) Submit activities during or right after the class

After the class:

1) Complete and submit the **homework** assignment (must be done individually)

In addition, students are expected to complete **two exams** and one **course project**

All submissions are made through canvas page

Solutions are posted after the due date with videos for the homework on the canvas page

### **Attendance Policy**

- Weekly online classes will be held synchronously via zoom.
- **Class attendance is required** except for excused absences which must be documented in advance (except for emergencies). Furthermore, attendance can be taken during the class and students must be present for their attendance to count and to receive credit for the in-class activities.
- You must be present for entire class period. Attendance is specifically very crucial for classes before the exams.
- **Each student is allowed to drop 1 class grade (one quiz and one in-class activity), no questions asked.**
- Each week, during the class, students will complete activities related to the current class topic which must be turned in before leaving the class that day.
- As in all courses, any unauthorized recording of the class and unauthorized sharing of recorded materials is prohibited.

### **Make-Up Policy**

Makeups for exams, quizzes, in-class activities, homework assignments and the final project are not normally allowed. If you cannot attend an exam, you must contact the instructor well in advance. Submitting an exam, quiz, activities, assignments or final project late will result in a zero. Arrangements will be made for students on a case by case basis for excused reasons. Failure to contact the instructor prior to the exam, quiz, or final project will result in a zero. **You are allowed to submit homework assignments up to 24 hours late with a penalty of 20 points.** This only applies to homework and not to any other assessment including activities, final project or extra credit assignments. It is the student's responsibility to honor and respect the given deadlines posted on Canvas (<https://elearning.ufl.edu>).

### **Evaluation of Grades**

- Homework, activities and quizzes are assigned through Canvas.
- **Please note the deadlines are strictly enforced and there are no dropped homework assignments.** For example if the deadline is 11:59 pm, any assignment submitted after this time is considered late.
- It is also your responsibility to submit the correct file and ensure the submission was successful before the deadline (please double check your Canvas submissions).
- If you are unable to submit your homework through Canvas, send a copy of your assignment to your instructor before the stated deadline. However, you may still be required to submit the file using canvas at later time.
- There will be two regular exams and a final project.
- **All exams must be taken online using Honorlock** and will emphasize the most recently covered material. Exam details will be posted on Canvas (<https://elearning.ufl.edu>).

Assignment	Total Points	Percentage of Final Grade
Quizzes (12)	10 each	10%
In class Activities (12)	100 each	15%
Homework Sets (9)	100 each	20%

Exam-1	100	20%
Exam-2	100	20%
Final Project	100	15%
		100%

### **Grading Policy**

Percent	Grade	Grade Points
92.0 - 100	A	4.00
90.0 - 91.9	A-	3.67
88.0 - 89.9	B+	3.33
82.0 - 87.9	B	3.00
80.0 - 81.9	B-	2.67
76.7 - 79.9	C+	2.33
73.4 - 76.6	C	2.00
70.0 - 73.3	C-	1.67
66.7 - 69.9	D+	1.33
63.4 - 66.6	D	1.00
60.0 - 63.3	D-	0.67
0 - 59.9	E	0.00

Note: C- will not be a qualifying grade for critical tracking courses. In order to graduate, students must have an overall GPA and an upper-division GPA of 2.0 or better (C or better).

More information on UF grading policy may be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

### **Voluntary Participation**

In this course, the instructor is conducting a research titled “Enhancing Undergraduate STEM Education by Integrating Mobile Learning Technologies”. Participation in this study is voluntary. Participation in this research is an independent activity and required a total of one-hour contributions throughout the whole semester. Through this study, you will participate in two surveys (Pre and Post Survey) and use the CourseMIRROR (www.coursemirror.com) application after each lecture (approx. 2 minutes). This application enables the instructor to understand students’ perceptions about course difficulties and misconceptions. Also, your instructor will not have access to your identifiable information. The results of this study will solely be used for course improvements and publication in reputed conferences and journals.

The willing students will participate in the following submissions

- 1) Submit a Pre-Survey (First week of classes)
- 2) Submit meaningful reflections after each lecture using an application CourseMIRROR v2. (Minimum of 10 out of 12 reflections are suggested).
- 3) Submit a Post Survey (Last week of classes)

### **Online Course Recording**

Our class sessions may be audio visually recorded for DRC students and for enrolled students who are unable to attend. These recordings will only be shared with authorized students or who have requested the recordings. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

### **Policies**

## ***Academic Dishonesty***

In class activities:

- The inclass activities are done in collaboration, however, requires individual submission. It is encouraged that students discuss their solutions and help other students during activities. However, these discussions should happen at conceptual level. Also, instructor and peer mentors will also be present to help and answer the questions.
- It is important to note that all these activities solutions must be developed by students themselves during the given time.
- Any unauthorized use of external material (e.g., online websites solutions, solutions provided by friends who are not enrolled in the current section of the course) will be treated as plagiarism.
- Any student found to have violated these rules, whether a provider or receiver of an unauthorized help, will be given a zero on that assignment and will be reported to the Honor Court. If you aren't clear on what constitutes plagiarism, ask the course instructional team.

Activities, Quizzes, Homeworks, Exams, and Project

- Sharing or copying of code through any medium such as email, text, snapchat etc., and plagiarism, in addition to other dishonest behaviors, are all considered to be academic dishonesty. No information regarding the activities, project, quiz, and exam solutions may be shared by students except for a discussion at a conceptual level.
- Collaboration (helping out others at a conceptual level through discussions) is encouraged in the course. However, looking at any piece of your peer's code, sharing files, searching for solutions found online, or using someone else to code your solution, or solutions provided by friends who are not enrolled in the current section of the course are strictly prohibited and is counted as plagiarism.
- Any student found to have violated these rules, whether a provider or receiver of an unauthorized help, will be given a zero on that assignment and will be reported to the Honor Court. If you aren't clear on what constitutes plagiarism, ask the course instructional team.
- It is important to note that academic dishonesty rules apply to both the student who acquired the solution, and to the student who allowed/provided another student the solution. All students are required to take reasonable care to prevent another student from examining their solution (unless otherwise allowed) and that student does examine your solution.
- **We strongly encourage you to visit the course instructional team office hours whenever you have doubts.**

## ***Online Exams through Honorlock***

- Honorlock will proctor your exams this semester. Honorlock is an online proctoring service that allows you to take your exam from the comfort of your home. You DO NOT need to create an account, download software or schedule an appointment in advance.
- Honorlock is available 24/7 and all that is needed is a **computer**, a **working webcam**, and a **stable Internet connection**. To get started, you will need Google Chrome and to download the Honorlock Chrome Extension. You can download the extension at [www.honorlock.com/extension/install](http://www.honorlock.com/extension/install).
- When you are ready to test, log into Canvas, go to your course, and click on your exam. Clicking "Launch Proctoring" will begin the Honorlock authentication process, where you will take a picture of yourself, show your ID, and complete a scan of your room. Honorlock will be recording your exam session by webcam as well as recording your screen. Honorlock also has an integrity algorithm that can detect search-engine use, so please do not attempt to search for answers, even if it's on a secondary device.
- Honorlock support is available 24/7/365. If you encounter any issues, you may contact them by live chat, phone **(844-243-2500)**, and/or email **(support@honorlock.com)**.

## ***Students Requiring Accommodations***

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

### **Course Evaluation**

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at <https://gatorevals.aa.ufl.edu/>. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

### **University Honesty Policy**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

### **Commitment to a Safe and Inclusive Learning Environment**

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, [rbielling@eng.ufl.edu](mailto:rbielling@eng.ufl.edu)
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, [taylor@eng.ufl.edu](mailto:taylor@eng.ufl.edu)
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, [nishida@eng.ufl.edu](mailto:nishida@eng.ufl.edu)

### **Software Use**

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

### **Student Privacy**

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

### **Campus Resources:**

#### Health and Wellness

#### **U Matter, We Care:**

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact [umatter@ufl.edu](mailto:umatter@ufl.edu) so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** <http://www.counseling.ufl.edu/cwc>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Discrimination, Harassment, Assault, or Violence**

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the **Office of Title IX Compliance**, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, [title-ix@ufl.edu](mailto:title-ix@ufl.edu)

**Sexual Assault Recovery Services (SARS)**

Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

*Academic Resources*

**E-learning technical support**, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. <https://lss.at.ufl.edu/help.shtml>.

**Career Resource Center**, Reitz Union, 392-1601. Career assistance and counseling. <https://www.crc.ufl.edu/>.

**Library Support**, <http://cms.uflib.ufl.edu/ask>. Various ways to receive assistance with respect to using the libraries or finding resources.

**Teaching Center**, Broward Hall, 392-2010 or 392-6420. General study skills and tutoring. <https://teachingcenter.ufl.edu/>.

**Writing Studio, 302 Tigert Hall**, 846-1138. Help brainstorming, formatting, and writing papers. <https://writing.ufl.edu/writing-studio/>.
