Hydrodynamics
CWR 3201

Class Periods: MTWR 4, Labs MTWR 5-6
Location: Lecture 260 FLG; Lab 254 Weil
Academic Term: Summer C 2019

Instructor:
Dr. Robert J. Thieke
rthie@ce.ufl.edu
294-7783
Office Hours: MTR 9:45 a.m. – 11:00 a.m. 370B Weil Hall

Teaching Assistants: TBA

Course Description
Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines. 4 Credit Hours

Course Pre-Requisites / Co-Requisites
EGM 3400 and MAP 2302

Course Objectives
The specific objectives of the course include the ability to:

- Identify and explain each of the general properties of fluids and demonstrate how each is significant in various fluid flow applications.
- Calculate pressure distributions in a static fluid, evaluate the resulting forces on solid surfaces, and determine the effects of those forces in a given system.
- Identify the key components of mechanical energy in flowing fluid and examine their variation along typical incompressible pipe and channel flows.
- Apply mass and momentum conservation equations to solve for velocity, elevation, pressure and forces in pipe and channel flows given the other variables.
- Apply potential flow solutions to solve basic practical shallow water and groundwater engineering flow problems.
- Employ dimensional analysis methods to design a scale model to replicate a given prototype flow system.
- Formulate a complete empirical solution for resistance in turbulent, incompressible pipe flow.
- Select and size pipes to design a single pipe system to meet head and flow constraints.
- Evaluate and optimize simple pipe system designs including pumps and turbines.
- Perform laboratory experiments to reinforce physical principles and develop and refine the student's physical intuition.

Materials and Supply Fees
None

Professional Component (ABET):
As the first of a required three course sequence in Water Resources Engineering (Hydrodynamics, Hydraulics, Wastewater Treatment), CWR 3201 is one of the basic civil engineering courses satisfying the need for 1.5 years of engineering coursework and also provides the foundation for design courses that follow (such as Urban Stormwater Management).
Relation to Program Outcomes (ABET):

Required Textbooks and Software

- *A Brief Introduction to Fluid Mechanics*
- Young, Munson, Okiishi and Huebsch
- ISBN 978-0470-59679-1

Recommended Materials

Formal class notes for the entire course (in "framework" style, with important equations, words, diagrams, etc. omitted) are available for purchase at Target Copy, 1412 W University Avenue (376-3826), and will be needed after the first day of class. These will be very useful for reviewing the recorded lectures.

Course Schedule

- **Week 1:** Introduction, Fluid Properties - Chapter 1
- **Week 2:** Fluid Statics - Chapter 2
- **Week 3:** Bernoulli Equation - Chapter 3
- **Week 4:** Kinematics, Exam 1 - Chapter 4
- **Week 5:** Linear Momentum Equation - Chapter 5
- **Week 6:** Energy Equation - Chapter 5
- **Week 7:** Differential Analysis - Chapter 6
- **Week 8:** Diff Analysis, Exam 2 - Chapter 6
- **Week 9:** Dimensional Analysis - Chapter 7
- **Week 10:** Dimensional Analysis, Pipe Flow - Chapter 7, 8
- **Week 11:** Pipe Flow - Chapter 8
- **Week 12:** Pipe Flow, Pumps, Exam 3 - Chapter 8, 11
**Attendance Policy, Class Expectations, and Make-Up Policy**

This class will be presented in a “flipped” format as opposed to a standard lecture-style class. In this approach, the expectation is that students will watch video lectures in preparation to attending the class meetings. Traditional homework will not be assigned in favor of in-class problems, case studies, and other practical examples of engineering and every-day fluid mechanics. In this manner there are three steps for reinforcement of important concepts to aid in long-term understanding:

1) Review of recorded lectures and completion of “framework” style notes;
2) Completion of class activities and quizzes; and
3) Review for examinations.

As such, attendance in class is essential to success in this course. Individual and team quizzes will review material from the recorded lectures in order to assure that all students have come prepared for the activities of the day. Additional quizzes will be given at class meetings that will also serve as attendance credit. Attendance at laboratory sections is mandatory.

Excused absences are consistent with university policies in the undergraduate catalog: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx) and require appropriate documentation.

**Evaluation of Grades**

<table>
<thead>
<tr>
<th>Assignment</th>

More information on UF grading policy may be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)
**Students Requiring Accommodations**

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, [https://www.dso.ufl.edu/drc](https://www.dso.ufl.edu/drc)) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

**Course Evaluation**

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at [https://evaluations.ufl.edu/evals](https://evaluations.ufl.edu/evals). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students via a link on the same page.

**University Honesty Policy**

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code ([https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/](https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

**Software Use**

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

**Student Privacy**

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: [http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html](http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html)

**Diversity Statement**

The Herbert Wertheim College of Engineering (HWCOE) values a diverse and inclusive community. It is integral to success in every area of our college. Therefore, the College is committed to non-discrimination with respect to all areas of human differences, including but not limited to national and ethnic origin, race, age, sex, sexual orientation, gender identity and expression, beliefs and opinions, religion and faiths, culture, socio-economic background, level of physical or mental ability, and veteran’s status. This commitment applies in all areas – to students, faculty, and staff and intends to reflect the College’s belief that educational and employment decisions and access to University activities should be based on an individual’s abilities and qualifications.

The HWCOE values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. We aspire to educate students to become future leaders capable of creating diverse and inclusive work cultures wherever their careers may take them.
Campus Resources:

Health and Wellness

**U Matter, We Care:**
If you or a friend is in distress, please contact umatter@ufl.edu or 352 392-1575 so that a team member can reach out to the student.

**Counseling and Wellness Center:** http://www.counseling.ufl.edu/cwc, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or http://www.police.ufl.edu/.

Academic Resources

**E-learning technical support**, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. [https://lss.at.ufl.edu/help.shtml](https://lss.at.ufl.edu/help.shtml).

**Career Resource Center**, Reitz Union, 392-1601. Career assistance and counseling. [https://www.crc.ufl.edu/](https://www.crc.ufl.edu/).

**Library Support**, [http://cms.uflib.ufl.edu/ask](http://cms.uflib.ufl.edu/ask). Various ways to receive assistance with respect to using the libraries or finding resources.

**Teaching Center**, Broward Hall, 392-2010 or 392-6420. General study skills and tutoring. [https://teachingcenter.ufl.edu/](https://teachingcenter.ufl.edu/).

**Writing Studio, 302 Tigert Hall**, 846-1138. Help brainstorming, formatting, and writing papers. [https://writing.ufl.edu/writing-studio/](https://writing.ufl.edu/writing-studio/).
