What we believe

- We believe engineering and computer science can transform the future in areas which are critical to society.
- We believe that such a transformation will require a new kind of engineer – an engineer that is technically excellent but capable of leading and innovating in a world which is increasingly global and interdisciplinary.
- We believe world changing innovation requires a workplace and a culture which is diverse and inclusive.
Why HWCOE?

- HWCOE is comprehensive, collaborative and growing
  Every engineering discipline except architectural and petroleum
  Added Wertheim Laboratory for Engineering Excellence
  Added Malachowsky Hall for Data Science and Information Technology

- HWCOE is inventive and translational
  HWCOE produced more licenses and options than Caltech, Penn State, UNC Chapel Hill, USoCal, University System of Maryland, and the Texas A&M System

- HWCOE is more diverse than many other colleges of engineering
  #2 producer of engineering degrees to Hispanic students
  #6 producer of engineering degrees to African American students
  #6 in master’s degrees and #10 in doctoral degrees for awarded to women
