

Pedro Manzato
Business Administration
Innovation Fellows Program - University of Florida

Born in Pembroke Pines on December 2nd, 2002, Pedro Manzato has lived in Pembroke Pines his entire life. Born to two Brazilian parents, Pedro grew up with heavy Brazilian influences. Brazilian and Italian familial influences strongly impacted his love for cultural cuisines.

Growing up he was heavily involved in extra-curricular activities and sports. His love for competition was fostered by his athletic abilities. While sports were a large part of his life growing up, he also grew fond of the arts, particularly music. This fondness accelerated as he was actively involved in his musical band, particularly as a guitarist.

As he moved to college, he remained strong in his Brazilian roots by joining the Brazilian club at the University of Florida. He has also remained athletic, staying consistent with his swimming abilities by joining the swimming club at UF. He has also been academically involved at UF in pursuing his career through the Entrepreneurship Collective. This organization has fostered his love for entrepreneurship and is therefore excited to be a part of such an innovative experience. The Innovation Fellows Program exemplifies his academic aspirations and will be an invaluable learning experience to fulfill his ultimate goal of starting his own business. He is especially excited to be alongside individuals who have already accomplished these aspirations.
