

**Luke Cutting**  
**Business Administration, Communication Leadership**  
**Innovation Fellows Program - University of Florida**  
**Herbert Wertheim College of Engineering/Warrington College of Business**

Luke Cutting is a Junior at the University of Florida pursuing a degree in Business Administration with a specialization in Communications Leadership. He plans on working as a Supply Chain Manager in an Aerospace company after graduation from the Warrington College of Business.

Some of Luke's interests outside of school include watersports, running, and playing guitar. He also builds, codes, and flies first person view racing drones. This has given him valuable insights into not only computer building and coding, but also the fundamentals of aeronautics.

In his High School years Luke started a marketing business called Merely Marketing. This company focused on optimizing automotive company's online presence to increase their customer bases. Starting this company taught Luke many challenges that entrepreneurs face and how one must deal with them in order to be successful.

Luke enjoys challenging himself with new tasks, especially in a group setting. He is always eager for what is next and is ready to jump on any opportunities that may come his way.
