

Name: William (Alex) Kratochvil
Major: Psychology Minor: Innovation
Innovation Fellows Program - University of Florida
Herbert Wertheim College of Engineering/Warrington College of Business

Hi, my name is William Kratochvil, but call me by my nickname, Alex. I graduated from Fort Myers High School with an IB Diploma in July, 2020 and I am currently in my third year of college, majoring in Psychology via the Innovation Academy here at the University of Florida. I have spent time working as an electrician, a trumpet tutor, and managing a small scuba shop. Each one of these jobs are the direct result in my passion for music, scuba diving, and microelectronics.

I have special interests in 3D modeling/printing, DIY Arduino projects, composing music, and even starting my own jazz band. I also have experience dealing with various AI technologies in Python like: Machine Learning, Deep Learning, NLP, CNN, and Hyper Parameter Tuning.

I am currently interning at the Loss Prevention Research Council (LPRC) and I will soon be working for the Intelligent Critical Care Center (IC3) in the Spring. This semester, you can find me running between the UF Innovate Hub, my classes on campus, and the Ben Hill Griffin stadium - where I play the trumpet in the Gator Marching Band. I am constantly looking for new things to learn and always looking to make improvements on my work.
