Subject: Student Health Center Use for Summer Research Program Participants

Hi Krista,

I hope you're doing well! I wanted to introduce myself—I'm the new Associate Director of Operations at SHCC and will be helping coordinate on this moving forward.

I'm happy to confirm that we will continue to provide Student Health Center access for your Summer Undergraduate Research at Florida (SURF) program participants this year.

To help us support your group, we will need:

- A list of eligible students participating in the program
- Indication of whether each student will be paying the student health fee

For any students not paying the health fee, our support staff will need to ensure the guarantor is updated appropriately at the time of visit.

Please let me know if there are any additional details you'd like to discuss.

Looking forward to working with you!

Zachary Betty

Associate Director of Clinical Operation
