The College of Engineering invites nominations and applications for the endowed position of Intel/Charles E. Young Leadership Chair in Information Technology. The Intel Foundation established this endowment in the UF Department of Electrical and Computer Engineering to honor Dr. Charles E. Young, who served as president of the University of Florida from 1999-2004. The ideal candidate will be a worldwide recognized scientific leader in fundamental and applied IT research with a proven record of excellence in research, education, funded large-scale activities and team building.

This position will be at the full professor level and will be tenured in the Dept. of Electrical and Computer Engineering. Thus, candidates for this chair must have a Ph.D. in Electrical and Computer Engineering or in a related discipline and must have a demonstrated record of exemplary achievement and leadership in their field of research. Responsibilities will include research, teaching, and service. Successful applicants are expected to be dynamic and visionary and to lead teams of faculty in significant funded research activity. Areas include classical core subjects in IT research as well as emerging important domains such as cybersecurity, cyberphysical systems, virtual reality/simulation, autonomous and adaptable systems, distributed sensing and processing systems, health and medical systems, green/sustainable computing, homeland security. At the University of Florida, the successful candidate will have ample opportunities to collaborate with IT faculty in defining new strategic research directions, developing group initiatives and amplifying individual research efforts. The College of Engineering has excellent ties with industry as evidenced by two NSF Industry-University Cooperative Research Centers in the areas of Autonomic Computing, and High-Performance Reconfigurable Computing.

The Search Committee invites letters of nomination, applications (letter of interest, complete CV, and list of five references), or expressions of interest to be submitted to the search firm assisting the University of Florida. Review of materials will begin immediately and continue until the position is filled. It is preferred, however, that all nominations and applications be submitted prior to March 5, 2012.
