The University of Florida’s Department of Computer & Information Science & Engineering (CISE) in the Herbert Wertheim College of Engineering is concerned with the theory, design, development and application of computer systems and information processing techniques. The department focuses on using computing to solve societal problems and to educate the world on issues of technology and computing. With more than 50 faculty members and 2,500 undergraduate and graduate students, the department boasts a diverse body of research in data science, computing, cybersecurity, machine learning and bioinformatics, among others.

Industry engagement is a top priority. A career fair is held twice a year to connect CISE industry partners with students. The event sees an average attendance of 1,200 students and 35 companies.
